

# Press Release

Date: July, 2011

From: James Barton Design Build

Re: Wounded Warrior Project

James Madsen owner of James Barton Design Build along with additional BATC (Builders Association of the Twin Cities Foundation) members and suppliers, vendors recently came together and volunteered their time to remodel a basement for the family of Wesley Cureton, a US Army Vet of 22 years who was injured in Iraq.

During Wesley's 22 years in service he did seven tours of duty including Operation Desert Storm in 1991 and Operation Iraqi Freedom from 2004-2006. Wesley received various accolades including two Purple Hearts. While serving Wesley was injured when a mortar round exploded in front of him. He has loss of sight and other neurological damage due to his injuries.

"When we were asked to participate by the Wounded Warrior Foundation, I knew immediately this was something our company wanted to be involved in", said James. The Cureton's are such a deserving family and have given up so much for this country. Wesley served for all of us, now it's our time to give back to Wesley and his family.

Phase one of the Cureton remodel was a lower level finish to ensure the space was accessible and easier to navigate. Phase two will be a small kitchen addition and kitchen renovation to ensure safe access to the house and easy use of the kitchen.

If you'd like to see pictures of the Cureton project or find out more about James Barton Design Build visit their website at [www.jbdb.biz](http://www.jbdb.biz) or contact them at 952-431-1670.
